

# Notice of Project Commencement

## Lookoff 2030

Municipality of the County of Kings  
Integrated Community Sustainability Plan  
Phase Two

In May of this year, the Municipality of the County of Kings completed Phase One of a new Integrated Community Sustainability Plan. This Plan has identified strategic priority areas concerning sustainable development in Kings County, and includes a Vision statement for the County. The Vision reads as follows. This Vision is subject to revision.

Phase Two of the ICSP will expand on the work completed to date, and will result in the drafting of a series of action plans designed to attain the Vision and link the action plans to the municipal budget and potential capital investments. In September, October and November, 2009, the Kings County Council, acting on the advice from a Steering Committee established by Council, will be preparing the Phase Two plan. The Institute

for Planning and Design (IfPD) will be providing professional and technical support. During this period, IfPD will be meeting with various groups and individuals in Kings County, including members of the public, key stakeholders and informants, as well as Village councils to discuss the Vision and the action plan implications. Now is the time to get involved in this important process. The bottom of this page contains contact information, as well as a Web address where you can find more details about the planning process and the Phase One report. Over the next few weeks, meeting dates will be confirmed. Please contact us at one of the numbers or E-mail addresses shown below to be sure your message does not get overlooked.
